

PAOLA CARVAJAL

Operations Strategy & Transformation Leader

Program & Project Leadership | PMO Governance | Operating Models & Supply Chain

MBA, MIB | Puebla, Mexico | +52 222 480 7474 | paola.carvajal.sanchez@hotmail.com

[linkedin.com/in/paola-carvajal-senior-manager](https://www.linkedin.com/in/paola-carvajal-senior-manager)

Operations and supply chain strategy leader with 15+ years of experience driving performance improvement, operating-model transformation and enterprise change across consulting, manufacturing, automotive, technology, retail and consumer products. At PwC, leads multi-workstream programs for Fortune 500 clients, combining operations strategy, PMO governance, transition management, process optimization, analytics, automation and team leadership.

Experience includes leadership of PepsiCo's cross-functional remediation and stabilization program; the Duracell Controllershship knowledge-transfer transition from Miami to Costa Rica; supply chain strategy for Lennar; global PMO programs for Google and H&M; and co-development of an Amazon Connect/AWS operating model and value case.

Earlier leadership includes building a multinational Mexico operation from the ground up and achieving full profitability, negotiating a 30% reduction in warehousing costs, cutting automotive expedited shipments by 95%, and delivering 70% revenue growth and 40% operating-cost reductions through manufacturing advisory.

30%

Lower warehousing costs

Revenue growth

40%

Lower operating costs

PROFESSIONAL EXPERIENCE

PricewaterhouseCoopers S.C. | Senior Associate | Consulting

Feb 2023 - Present

PepsiCo | UCX PMF CDMX Remediation & Stabilization

Program leadership & operational governance | Feb 2026 - Present | Second contract extension through Nov 20, 2026

- Led a 10-FTE cross-functional team across incident remediation, Salesforce case management, customer support, process optimization, training, knowledge management, and operational governance for PepsiCo's regional support organization.
- Led the remediation strategy for 2,700+ ServiceNow incidents and 900+ Salesforce cases, reducing a significant legacy backlog while maintaining operational continuity and service performance.
- Expanded the team's mandate from backlog remediation into inbound customer support, Salesforce operations, training development, and process governance across Mexico and US support organizations; transitioned the operation from a 10-FTE remediation model to a lean 5-FTE steady-state model.
- Established governance processes, dashboards, KPIs, leadership cadences, and decision routines used to manage priorities, quality, risks, and performance.
- Helped lead the POAF automation framework, translating repetitive operational pain points into process maps, requirements, testing priorities, and a scalable automation roadmap.
- Coach and develop team members through structured feedback and quality review; formally mentored three Associates and supported development of a team member whose performance contributed to a promotion case.
- Secured two consecutive contract extensions based on delivery performance and generated a cross-engagement referral after the client sponsor recommended the team's solution to PwC leadership.

PWC ENGAGEMENTS | CONTINUED

PepsiCo | Automated Outbound Puebla Sales Pilot

Operations strategy & business case | Aug 2026 - Present | Business case: modeled capacity estimates over 40 days

- Co-developed the operations and technology strategy for an outbound-sales pilot using Amazon Connect and AWS, replacing manual dialing with a shared-agent operating model supported by progressive/predictive dialing and ML answer detection.
- Built a scenario-based capacity and value model for ~1,000 target customers and a 7-agent team, modeling ~500-650 agent-hours of potential capacity freed in Progressive mode and ~900 hours in Predictive mode over 40 days.
- Assessed Salesforce-AWS integration options, skills-based routing, Customer Profiles, compliance controls, scalability, and implementation trade-offs to support leadership decision-making and pilot design.
- Translated the business problem into a phased roadmap, measurable value case, operating-model choices, and implementation dependencies for presentation to client and PwC leadership.

Duracell | Controllershship Transition & Knowledge Transfer

Transition Management Lead | 2025

- Led the Controllershship knowledge-transfer and transition workstream from Miami to Costa Rica, translating current-state finance activities into a structured transition plan, governance model, documentation approach, and handover framework.
- Established the process taxonomy and unique task-ID structure used as the source of truth for KT planning; designed the workbook approach spanning taxonomy, daily calendars, team mapping, and individual training/test tracking.
- Standardized SharePoint repository and folder taxonomy, document naming, and source-of-truth controls while coordinating training schedules, preparer availability, recordings, and cross-border dependencies.
- Structured a reusable knowledge-capture model combining shadowing, transaction-level video tutorials, narrative guides, controls, dependencies, decision points, and common exceptions to support sustainable transition readiness.
- Received direct PwC Partner recognition for expertise, commitment, and above-and-beyond support to the Duracell engagement.

Google | RegReady Program

Compliance Analyst / PMO Support | Dec 2023 - Jun 2025

- Analyzed and mapped key provisions across ~150 global privacy and security laws to support Google's global compliance posture.
- Participated in weekly steering meetings with senior legal counsel, documenting decisions, risks, dependencies, and actions for leadership.
- Supported PMO coordination across implementation workstreams, helping maintain alignment, quality, timelines, and delivery follow-through.

PwC | Resource Management & Forecasting Optimization

Internal process-improvement initiative | Jul 2023 - Feb 2024

- Led a firmwide process-improvement initiative to reduce manual resource-analysis effort, standardize forecasting workflows, and improve leadership visibility across decentralized data sources.
- Designed and championed a centralized Salesforce-based resource-management solution and dashboards; aligned requirements and governance with Finance, Human Capital, and Tower Leadership stakeholders.
- Recognized for innovation and impact through PwC's internal iRace 4.0 program.

PWC ENGAGEMENTS | CONTINUED

Lennar | Supply Chain Strategy

Supply Chain Strategy Consultant | Jul 2023 - Sep 2023

- Led an 8-week engagement to improve supplier performance management and procurement efficiency.
- Conducted itemized invoice analysis to identify cost-reduction opportunities and designed supplier scorecards, KPIs, and a live-metrics framework for supply chain visibility and decision support.

H&M Group | EDB Platform Program

Project Management Consultant / Acting PM Support | Mar 2023 - May 2023

- Co-led the global EDB Platform Program and assumed full Project Manager responsibilities during the PM's absence to ensure continuity.
- Served as primary liaison to H&M Group's Global PMO and applied Agile ways of working to coordinate cross-functional teams, timelines, and deliverables.

EARLIER LEADERSHIP

Manufacturing & Operations Consultancy | Director / Strategic Advisor

Santa Cruz, Costa Rica | Oct 2021 - Mar 2022

- Advised manufacturing companies on growth strategy, operational scalability, production performance, and financial optimization.
- Developed market-entry strategies that achieved 70% revenue growth; redesigned production layouts and processes, reducing operating costs by 40%.
- Led ERP deployment and aligned technology investment with organizational goals, financial oversight, risk management, and long-term sustainability.

Deceuninck | Country Manager

Puebla, Mexico | Sep 2016 - Aug 2021

- Established and scaled Deceuninck's Mexico operation from the ground up, creating the infrastructure, team, operating model, supply chain, commercial processes, and governance required for a fully functioning business.
- Built and led a cross-functional team of 10+ across operations, logistics, customs, and supporting functions; designed the end-to-end supply chain across procurement, warehousing, inventory, logistics, distribution, and import/export.
- Negotiated a 30% reduction in warehousing costs, strengthened inventory control and supplier coordination, and implemented ERP/CRM-enabled operating processes; enterprise-system exposure includes Compaq, Commercial, Mycrosip, and Odoo.
- Built and managed a portfolio of 57 top-tier B2B clients and achieved full operational profitability through disciplined fiscal planning, cash-flow optimization, and risk mitigation.

Abaco | IT, Software & Hardware | General Manager

Puebla, Mexico | Jan 2016 - Sep 2016

- Strengthened B2B partnerships with Intel, Dell, and HP while improving market performance, financial management, personnel efficiency, and operating discipline through targeted restructuring initiatives.

CORE EXPERTISE

Operations & Supply Chain Strategy | Operating Model Design & Transformation | Performance Improvement & Operational Excellence | Sourcing, Procurement & Supplier Performance | Logistics, Warehousing, Inventory & Planning | Transformation Roadmaps & Multi-Workstream Delivery | PMO Governance, Risk & Delivery Management | Transition Management & Knowledge Transfer | Business Cases, Analytics & Value Tracking | Executive Stakeholder Management | Team Leadership, Coaching & Quality Review | Automation, AI-Enabled Operations & GenAI

EARLIER LEADERSHIP | CONTINUED

La Tendencia | Trading Company | Commercial Manager

Puebla, Mexico | Jun 2015 - Nov 2015

- Secured strategic clients including Grupo Carso, Mercedes, and Audi through commercial negotiations and relationship development.
- Optimized international trade and procurement activities, improving cost discipline while maintaining regulatory compliance and supplier coordination.

Schlemmer, a DELFINGEN company | Customer Service, Logistics & Procurement Manager

Tlaxcala, Mexico | Aug 2011 - Jun 2015

- Served as PMO for the Continental project transitioning operations from Schlemmer China to Schlemmer Mexico while managing end-to-end logistics, customer service, procurement, customs coordination, and supplier performance.
- Led the operational transfer with minimal disruption and redesigned inbound/outbound logistics and shipment planning, reducing expedited shipments by 95%.
- Managed a portfolio of 70 national and international clients and approximately 1,500 components across a complex automotive supply chain.
- Developed sales forecasts and annual plans to improve inventory, purchasing, capacity, and cash-flow visibility.
- Designed purchasing methodologies using ABC Analysis and Buy-vs.-Build, negotiated supplier contracts, and strengthened supplier decision-making and performance.
- Directed customs and broker relationships, addressed quality claims through corrective-action plans, and implemented 5S and shipment-certification standards to improve reliability and execution.
